Plug-In Air Purification System

A Photohydroionization™ (PHI) Technology

Reduces Airborne

- Smoke •Mold •VOCs
- Odors •Bacteria •Viruses

Benefits

- Plugs into existing outlets
- No wiring required
- Economical
- Low Maintenance
- 25,000 Hour Cell Life
- Light weight
- Compact
- Built in night light
- Hidden mounting screws prevents theft
- Built in electrical outlet
- 2 year warranty

CONFORMS TO
UL STANDARD 1598

3077712

Ideal for homes, hotel rooms, suites, public restrooms, offices, locker rooms and more!

The Air Knight Plug-In Natural Air Purification System provides bacteria, mold, odor and VOC's (chemical odors) reduction. The advantage of the Air Knight Plug-In is its ability to be used in any room and be completely inconspicuous. The Air Knight Plug-In, plugs directly into a wall outlet and can be used with or without its internal fan. Because it has its own outlets as part of the unit, you do not lose the wall outlet. The Air Knight Plug-In is an air treatment system not a filter.

The Problem:

Indoor air pollution is now considered by the EPA and Congress to be one of America's most serious environmental health problems. Tightly sealed buildings and homes may be more energy efficient but can trap pollutants and microbes indoors causing allergies, odors, mold and illness.

The Solution:

The Air Knight Plug-In by TopTech has proven to drastically reduce odors, smoke, mold, fungi, VOC's (chemical odors) and bacteria found in many rooms. Airborne bacteria and mold reduction is normally in the 90+ percentile

The Technology:

The Air Knight Plug-In, utilizes RGF Environmental's Photo-hydro-ionization technology (PHI) which creates super oxide ions, hydroperoxides, hydroxides and broad spectrum UV light targeted on a hydrated quad-metallic shell to produce an advanced oxidation.
